

# \$1? Money in 10 Questions

**Kids Edition**

## Money in 10 Questions: Kids Edition

Space required: 1,000–1,250 ft<sup>2</sup> (93–116 m<sup>2</sup>)

The Bank of Canada Museum asked Canadian kids what they wanted to know about money. A whole lot, as it turned out. More than 800 thoughtful, complex and just plain fun questions flooded in from across the country. This exhibition answers 10 of these questions using a series of play-based activity stations. The answers provide a foundation for what kids need to know to help them manage their financial futures.

Try and save a million dollars. Balance a budget with a scale and weights. Be inspired by a kid entrepreneur to make money. Decide if bones can be money and explore forms of currency that are nearly as strange. You can even touch them—one is furry!

This exhibition provides a space for parents and children to play and learn, sparking conversations and inspiration.

### Target audience

- Children ages 9 to 12
- Intergenerational family groups
- School groups

### Languages

- All elements are bilingual (English and French)

### Support material

- Training manual for guides
- Replicas and interpretive objects for programming
- Educational resources
- Promotional resources
- Condition report
- Installation and packing guides

### Space requirements

- 1,000–1,250 ft<sup>2</sup> (93–116 m<sup>2</sup>)
- 8 free-standing modules
- Multiple configurations possible

### Shipping & installation

- 13 crates on wheels / 2,317 lb (1,050 kg)
- Crates are collapsible and can be stacked into four piles
- Set-up: 1 day / 3 people

### Insurance

- Borrower must provide an insurance certificate

### Fees

- \$5,000 per 12-week period + shipping + applicable taxes
